We really enjoyed our walking tour with our guide. He was informative & friendly. He answered our many questions & was patient with us. Would highly recommend this tour if you like to get to know an area & a bit of Tokyo's history.

Many thanks to our guide for a very informative tour. He gave us a warm welcome to Tokyo and an appreciation of the imagery and meanings of the various elements of the Senso-Ji temple and shrine. And he braved a 30+ super humid day to do it! We are so grateful. It was our first day and a fantastic way to start our trip.

The tour with our guide was both entertaining and full of knowledge. At the beginning he gave us an overview of what we were about to see and he showed us exactly that. Any and every question was answered and he was very caring of his guests, making sure we were in the shade as much as possible and had enough to drink on us. Thank you very much for the time and effort you put into showing us Yanaka. I will definitely be going on another tour and hope to see him again.

Our tour guide provided a really informative tour. He knew his subject and was patient and super kind with all of our questions. We now know more of the history of Japan and more about how people live today.

The tour was great!

Our guide was exceptional.

His knowledge is phenomenal regarding multiple subjects in relation to the history — political, cultural, economic, and religious — of Japan.

He also excels in the clarity of his explanations, his sense of humor, and his patience in the face of our many questions. It was a wonderful experience, and we're grateful to SGG and to our guide in particular!

We had a guided tour inside the ASAKURA Museum of Sculpture from 11am.

It was an excellent tour that made us discover the richness of the museum and the house.

The guide also recommended us other guided tours of SGG and indeed we've followed his advice.

Great guided tour of Senso-ji temple with our guide. We were lucky to find by chance the tourist information center which offers free guided tours. We visited for more than an hour and a half with him, it was great they taught us a lot about the temple, the history of Japan but also about the culture and local crafts. we loved it.
